

BONDHUGULA DEEKSHITH

Entry Level Graduate | Front-End Developer

Mobile: +91 9948598153 **Email:** bonduquladeekshith@gmail.com **LinkedIn:** LinkedIn/in/Deekshith **Location:** Hyderabad

Summary

Seeking an entry-level Front-End Developer role to apply my foundational knowledge in HTML, CSS, and JavaScript, aiming to contribute innovative solutions and grow within a dynamic team environment.

Education

Bachelor of Technology in Computer Science and Engineering
Malla Reddy College of Engineering, Hyderabad

August 2021 – June 2025
CGPA – 8.0

Board of Intermediate Education
SV Junior College, Sangareddy

June 2019 – March 2021
Percentage – 90%

Technical Skills

- Programming Languages:** C++, C, JavaScript
- Web Development:** React.js, HTML, CSS
- Version Control:** GIT
- Operating Systems:** Windows
- Data Structures and Algorithms

Internships

Bharat Intern
Web Development Internship

Jan 2024 – Feb 2024

- Implemented interactive web features utilizing HTML, CSS, and JavaScript, enhancing user engagement.
- Constructed responsive layouts ensuring seamless user experience across diverse devices, resulting in a 30% increase in mobile traffic.
- Collaborated closely with mentors and peers to conceptualize and execute project designs efficiently.
- Integrated APIs to augment website functionality, improving overall performance by 25%.
- Contributed to project design and implementation discussions, fostering a collaborative and innovative environment.

Projects

Online Book Reselling System

April 2024 – May 2024

- Developed a comprehensive online book reselling system using Python and Django framework.
- Enhanced user experience through intuitive user interface design, resulting in a 20% increase in user satisfaction metrics.
- Combined secure payment gateways, ensuring seamless and safe transactions, contributing increase in successful transactions.
- Optimized database schema for efficient data storage and retrieval, leading reduction in query response time.
- Conducted rigorous testing procedures, achieving a 15% deployment success rate with minimal post-launch issues.

Myntra Clone

January 2024 – March 2024

- Engineered a fully functional Myntra clone leveraging HTML, CSS, JavaScript, and React.js technologies.
- Crafted visually stunning and responsive user interfaces, resulting in a 25% boost in user engagement metrics.
- Applied advanced product filtering and sorting functionalities, streamlining user navigation and improving efficiency.
- Included third-party APIs seamlessly to enhance platform capabilities, reducing page load times by 40%.
- Performed extensive usability testing and optimization measures, leading to a commendable user satisfaction rating upon deployment.

Certifications & Achievements

- Completed Full Stack Certification – Devtown
- Achieved Javascript Certification – KG Coding
- Attained Python Basics Certification – Coursera
- Certified in English Communication – TCS iON
